The purpose of this technical training is to help stormwater managers, engineers, city and county plan review staff, commercial landscapers, developers and environmental and engineering consultants:

- Understand stormwater management devices used in North Georgia and how they function
- Understand maintenance requirements of each stormwater practice
- Take a test at the conclusion of the training to become a Certified BMP Inspector
- Understand illicit discharge detection and elimination.

Sponsored by:

Upper Etowah River Alliance

Georgia Department of Community Affairs

University of Georgia

Nationally Renowned Principle Instructors:

Dr. William F. Hunt, III, Ph.D., P.E., is an Assistant Professor and Extension Specialist in North Carolina State University's Department of Biological and Agricultural Engineering.
