

Build-A-Rain Barrel Workshop

The need for water is becoming a serious issue in today's world of drought and population increase. Water restrictions make it difficult to maintain green yards. Collecting stormwater runoff from our roofs is a natural way to make water available for your use in the yard. It can also help prevent erosion caused by downspout runoff. Plan to join us for a rain barrel workshop. (Everything is provided, Barrels are 55 gallon)

When: Friday, March 5 – 10-Noon

Where: The Upper Etowah River Alliance Office (next to the Am. Legion and Fairgrounds)

180 McClure St.
Canton, GA 30114

Cost: \$25, includes all parts and assistance in assembly.

Who: Anyone interested in collecting FREE water

Space is limited to 10. Call Diane Minick to sign up, 770-704-5479.

Future Workshop Dates: The First Friday of Every Month from 10-Noon and the Fourth Saturday of Every Month from 10-Noon.
