

# Build-A-Rain Barrel Workshop

---

The need for water is becoming a serious issue in today's world of drought and population increase. Water restrictions make it difficult to maintain green yards. Collecting stormwater runoff from our roofs is a natural way to make water available for your use in the yard. It can also help prevent erosion caused by downspout runoff. Plan to join us for a rain barrel workshop.

**When:** July 25, 10 am- 12 pm

**Where:** The Upper Etowah River Alliance Office (next to the Am. Legion and Fairgrounds)

180 McClure St.  
Canton, GA 30114

**Cost:** \$20, includes all parts and assistance in assembly.

**Who:** Cherokee County Citizens

**Space is limited to 10.** Call Diane Minick to sign up, 770-704-5479.

**Future Workshop Dates:** August 15, September 26 and more

**Sponsors:**
